I came to this course to specifically train to become a  
Life Coach. Through all training and techniques  
my life has truly been transformed. Many times  
the limiting beliefs in my life were challenged.  
Such a safe environment is created for you to learn  
and grow and for me I count it a privilege  
to have sat under Burk & Isobel's training.  
The most amazing things have taken place daily  
and I have met such wonderful people.  
Thank you Burk and Isobel.  
I am sure I will only know the impact of how my life  
has changed in the weeks that lie ahead. Become a  
Life Coach I will and then I will write another testimonial  
of exactly what took place at this course.

The training is definitely one of its kind, I have never in my life thought I'll see something like this. I am more clear, confident, strong mentally and physically, I am now in control of my life than I've ever thought I'll be. The knowledge and experience I've received here is beyond description, no words to describe how I feel about myself right now. I feel that I already achieved all my goals in life. I am now ready to face any challenge I'd come across from now on. Thank you so much Burk and Isobel for giving me this unique gift of life, I promise you that you'll be seeing more of me from now on. From the bottom of my heart I salute and love you. You are simply the-

This helped me a lot to focus on myself and letting go of things that I was not even aware of. Initially I came here for training as a life coach, but I see this as more of self cleansing. Learnt very effective skills on how to help myself and others on core things like emotions. I feel my life has drastically changed. In a nutshell - I did detox my emotions. Very blessed too to share this phenomenal techniques with other people. Great coach and wonderful people I met at this training. Ready to go back to the world equiped and empowering others.

When I arrived at the training I was sceptical that I would find a solution to the sense of hopelessness within me. I just did not see anything positive in me or around me. I walked around faking happiness until day 4 when it became too much that I stopped. In the afternoon I participated in the bang pattern on self image. After that it literally felt like I was re-birthed. So much toxins, negative beliefs and negative emotions just vanished. I am grateful to Burt and Isobel for the course. Burt's method of teaching was structural and powerful, so powerful that the energies flowed positively. Even though there was a lot to grasp, it was easy and gracious. Thank you for playing a role in my development.
