I really, really feel that I was meant to

Burk and Isabel Esterhuysen, you are two incredibly gifted people who, with your energy and intentions, called me to this course to experience and become transformed from within. I now finally understand why you emphasise congruence and being & living these principles and making them one's reality. I needed to be right with and within myself first, then impart all that I am and ~~be~~ consciously becoming, to other people who want and need my guidance. This is the beginning of a lifelong relationship because you both have the same values as I do & there is a lot that I want to model from you. You shall see it all unfold. Keep impacting the world & sharing your gifts with much love

This is my second time doing this training.

I am amazed to discover how much I have grown and how much my life has been transformed since the last time I was here.

What an incredible journey it has been especially considering how skeptical I was the first time I attended. This is truly transformational.

Thank you Burk and Isabel for following your passion and for so openly sharing it with us. My life has not been the same since my first training with you in May 2016. My health, finances, spiritual and emotional states have been completely transformed. I take full responsibility and I am cause in my life. I am love. From a very grateful and thankful heart.

The workshop was very different to what I expected. I expected a more business focussed approach to life coaching and goal setting. To my pleasant surprise this was far more powerful and useful. The techniques are wonderfully thought out with a good balance between practicality and emotion. On top of that it is a life changer in the way it makes you view yourself and the world. It's like looking into a room that you never knew existed. Burk you are a very inspiring man and I loved your open candidness. I enjoyed you so much that I'll forgive the grammatical errors 😊

I am 19 years old, before I came to this academy I struggled to figure out what I want to do with my life. I only know that I want to help people. The only way of knowing how to help people where were physical ways or psychology ways but that does not make me feel fulfilled. I feel now that I have found a spiritual way to help people and to me that is beautiful. I was always interested in spiritual things but however I never knew I can make it my life. Now I feel that I can help people and seeing I have made a person smile for the right reasons makes me happy. & all I want to do is be happy. I found myself & I have the best self-image thanks to Isabel.♥

It was not easy for me to stick to the programme until the end because I was not so well but I am glad I did.

Thank you Burk!!

Having done the course before I have found that I am so much more intune with myself now and am able to get myself into a mindset or state much quicker. I needed to jog my mind to see who & what I am and how much I can achieve. I always knew it, but now I can do it.

I feel free which over the past two years is amazing as I was trapped thinking I needed to make others happy & forgot about myself. Now by me going through all of these techniques again I know I can change my outside world by just being me. The happy, content & amazing me. I believe in myself again.

This course (a refresher) helped me to sharpen my techniques even more than what I already am using. I feel more confident in the doing & applying the techniques, specially listening to you Burk & Isabel with the Bang Pattern & Anchoring which I was not using as well as I can now. The course also helped me to interact with like minded people I could share my experiences with. I enjoyed the support & Supporting others. I was able to reflect on myself as well & realised some of my own challenges. Thank you for the opportunity you offer to do a refresher. I urge any previous coaches to do a refresher.

The course taught me the boundless potential of me, can be realised. It gave structure to many incongruent elements that I did not know how to align. This is a great start at understanding the mind, as the mind & consciousness are literally the keys to the ~~mind~~ universe. I wanted to understand this machine (me) better & to harness its power more. I can do that now. I am forever changed, on a road to 'consciousness' maturity.
