I have for the past 10 years conducted research in the discipline of psychology and have familiarised and utilized most of the individual interventions with limited success. A problem evident is the time frame needed for the more effective ^{workable} interventions to be effective.

But I was astonished and blown away by the fact that Burk's interventions not only cover a scope that includes all the interventions that I have studied and researched (nearly everyone), I was amazed at the fact its simplicity and effectiveness and the fact that it ^{not only} ~~is~~ ^{cures} ~~is~~ ^{not only} ~~is~~ ^{is} also effective for motivation and ~~other~~ amongst other.

Well done Burk - a commendation is in the order of the day !!!

When I look back on this week of Transformational Coach / Life Coach Training I can say with all honesty that this was the most transforming week I have experienced in all my life. I learn a lot about myself, the techniques that I learnt and applied transformed not only my own life but I could see the effect it had on every single person around me. Because of the training and healing that took place going through this process I can testify that I am leaving this training a different person, this changed me in so many ways I did not think possible (PS. because I thought I was a wise ass) I realized how little I know about the mind, now I am excited to use the techniques to help & heal & transform other people. The course is very unique, I can recommend anyone to do this course even if this is for your own personal growth or healing. I am grateful to Burke for changing my life. I am looking forward to the next course.

I came to the Training for 2 reasons: (1) I had a personal relationship problem of rejection by one of my children and wanted guidance on how to resolve it. (2) I wanted to explore the possibility of starting a coaching business. My personal problem completely disappeared since I learnt within the first day that it was only in my reality! I am a completely new person and my whole self-image changed from feeling worthless to feeling spectacular! The coaching business attracts me definitely and I am starting it up now.

The practical nature of the course was key to integrating all the concepts. Having been able to experience the techniques as a client has liberated me from some fears and limiting beliefs that I have previously just "had to live with".

Being the coach during the exercises has afforded me the opportunity to apply the techniques & make it my own.

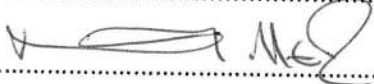

Living intentionally is key to unleashing the limitless, infinite potential within.

When I enrolled I was looking for a positive change in myself + to find ways to help people who has been through similar experiences. The first day on the training, I was emotional, sad and could not relax. As we worked through the training material I could feel something change in me. I could not explain it but after the trauma therapy I feel lighter, I am more happier + more at ease within my own body. I am not tense, I can actually sit without tensing up my body. I feel liberated and inspired. Thank-you Burke for helping me make this positive change!

While I knew a lot of the principles before, this training brought them to life for me. I really enjoyed and learned a lot. I appreciate the techniques applied as knowledge alone does not make as big a difference as the application. Thank you so much Derek! I'm ready to make a difference in my own life and those of others, which is very important for me.
