This has been the biggest transformation I have made. I came into the training to learn skills to help other people solve their problems & because I want to change other people's lives & help other people overcome obstacles holding them back. I not only learned all of the above skills & more, but I myself got entirely transformed & changed. My life is changed & better because of this training & now I feel so much more empowered to go out there & change the world. To make it a better place. This was certainly the best investment of time & money that I could ever have made. I am truly excited to continue to learn more from Burke & master these skills, & knowledge.

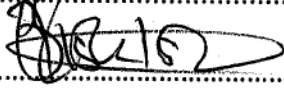

Thank you for helping me see myself & the world through entirely different eyes.

I thought I came to learn techniques on how to do transformational coaching. I left having been transformed myself. These methods have the capacity to remove the facade of acting as if one is not a slave to negative emotions. It is the most life changing and fulfilling 5 days of my life. I highly recommend it to any aspiring coach who really wants to touch the core of the issues of mankind.

Thank you! Thank you!! Thank you!!!

The first and most important thing that I have have learned is to never give up, never give in as well as to focus on the outcome and not the problem. Fear and guilt and disbelief in my life disappeared. I feel like I have made a success of my life already. There is no limitations, I am the success. I am ready to coach other people to see life as far to what you create it. This was an experience of no words.

Thank you!
