This training is "mind-blowing". It empowers you and is indeed transformational. It gives you a different perspective of time, and how to take control of your own life. It teaches you to take beliefs and perceptions from the unconscious mind and have a peripheral view of the world. (life). The structure that the course provides make it so encouraging, motivational and easily implementable. Thank you Burk and Isabel, its much appreciated.

In one word this training has been absolutely unbelievable. The power I have experienced here has completely transformed my perceptions and understanding of the world. The truth is that there are thousands of words that I could use to explain the experience that I have gained, on how to possibly be the best and truest version of myself and discover my life's purpose.

I have experienced massive growth through your amazing, phenomenal programme and I will never be the same.

Wow, WOW, WOW it's freakin' amazing!

Thank you for your wisdom, inspiration, healing and extraordinary guidance.

This training made me believe in myself again & how I can change my negative/unwanted states - This is exhilarating to know that I can live on the cause side of life and not on the effect side & how to take charge of my life. The techniques had such an impact on my mind but what I didn't realise was how it was going to effect my physical body, both good & bad. At times the after effects of techniques made me physically ill. I never realised how much negative emotional baggage I had.

It's wonderful to be able to get rid of this and focus my energy toward the things I want in life, to start living my life. Being out of my comfort zone constantly was difficult but I now see the benefit in being removed from your environment.

I feel like a newly, charged up human being!!!

This training was amazing in that it gave me a lucid insight into my inner being. I gave me the requisite tools to change my life and to empower myself. As an advocate of pay-it-forward, I would like to also use these valuable lessons to change the lives of others and to also empower them in every way possible. Once one has this new perspective and introspection, it leads one to a transformed life. The transformation coaching model is a most certainly a justification of its naming convention. Thanks back to Isabelle for helping me to traverse new paths and to take "the road not taken" in my new journey in life.

It really helped me to shift a lot of trauma from the past to be able now to know with certainty the future + especially the now is excellent, the place of fulfillment + being.

I really + truly appreciate your expertise + compassion to equip + transform + coach people to not only transform themselves but also to be able to assist + transform others.

I broke the plank with ease and I am looking forward to wearing my shiny new self-image. I have left my paralysing fear of public speaking and of dreaming big in the past; along with doubt, fear-of-the-new and anxiety. I am powerful, colourful and so, so ready to develop and live my dream of owning and thriving coaching business! I stand up for myself, share my opinions and believe my voice and words have influence and value. I came in skeptical that the promises Buck made in the pre-training that I could change so significantly, but I'm happy to look at my broken plank and eat my words!
Thank you, Buck and Isobel!

This is my second time into the training and I am glad that I was given the opportunity to redo my course. It came at the right time in my life when my health was deteriorating and I had got a emotional pain due to the scam I found my self in. I lost a lot of money but that didn't hold me hostage, I still owned the power and looked at the tragedy as the seed that will germinate and give me the returns. I am grateful for the mental strength and freedom I received through this course. Without it I would still be in mental slavery.

May God multiply you and keep on giving you vision and revelation for future training.

Much Love.
