This programme has completely changed the way I look at and approach my life. I have all the tools I need to continue my journey into (continually) becoming ~~the~~ <sup>my</sup> best version of myself. And I am humbled when I think about how this will affect my marriage, my business, my family, and the clients and communities I impact. I am a different person.

I overcame my limitations

I healed my negative emotions and trauma.

I developed new skills and competencies

I gained practical experience

I broke through the plank!!

More importantly I discovered a part of myself again that had been dormant for a long time.

Thank you Burk & Isobel!

A week ago I was filled with doubt about my future. I began to ~~have~~ have a negative outlook on life and I was scared of the future. I left work (formally) in April and have not worked since - One, because of health issues and secondly because I stopped believing in myself and my abilities. I was lost, I felt that my purpose was gone and that scared the hell out of me. Today, I feel energised, I believe in myself, I know what I want to do in life. Because I was positive since the first night of the course, I believe I have attracted positive energy into my life - a major (potential) client from Botswana contacted me about coming to help them in their organisation. I am flying to Botswana on the 26<sup>th</sup> for a session with his (Project Management office) team.

I am thankful to have been part of the course ☺  
Believe!

Thank you Burk!

I was not sure what to expect and since I lost my son 6 months before I was worried about ~~the~~ taking in the material and concentrating for so long. I was pleasantly surprised that both Burk and Isobel stuck to their commitment to motivate me to get through the course. This, even though it is a small thing for most people, took lots of energy from me. The course material is impactful and changed some beliefs I had of myself and their expectation of me to stay committed, motivated me to follow through and complete the course <sup>and break through some old habits.</sup> The techniques are easy to learn and impactful <sup>and</sup> even though the group was not that experienced, we could feel how the techniques worked immediately. Thank you Burk and Isobel for an excellent course (and for keeping me up late 😊) I am glad and excited about my future and personal vision. Thank you! I know Julian would be proud of his mom.

This has been a life transformation 5 day journey for me. I came here broken, in doubt, anxious with low self-confidence. The information and techniques I learned during this journey, brought back my dignity. I am now a believer in the ~~technique~~ technique I learned and used this week. I now know anything is achievable and attainable when I put my mind and thought focused. My goals are achievable. I had a total shift of behaviour, attitude, feelings and believes. I know how to use my subconscious to work positively for me and not against me. The training was not only about setting and achieving goals, I also found healing from my fears and anxieties that used to hold me back in the past. I am now equipped and ready to face the world. Nothing can stop me NOW!!!

Thank you to: Burk and Isobel Esterhuysen

Thank you! Thank you! Thank you!
