I started this course on the spur of the moment I felt a need to do something as I was feeling stuck in my moment. I had zero preconceived ideas about this course and to be honest worried that it would not live up to it's own hype.

The first day when I arrived I could write down hundreds of limiting beliefs, which stopped me from fulfilling my dreams but as the course progressed I was finding it harder and harder. In the end I had to force myself to write some down to complete an assignment and my mind was rebelling against it. I no longer wanted to purposefully think negative things about myself. This has always been far too easy in the past.

This course has given me the tools to march, purposely forward into my future with incredible belief in my own success as long as I keep that self doubt at bay (tools given of course)

The course content was also incredibly detailed and will convince the biggest skeptics that the content has been well researched.

The scripts are amazing and I have not seen the like in any other course.

Thank You.

This course has transformed my life. It has given me the tools to take charge of my life, give me the courage to step into my life and finally live it with purpose.

I have also been that person that have searched for the past 20 years for the right tools, the right system to put it all into place, to find a "map" and a gps for my life; but nothing quite like this....

This is EXTRA ordinary. I feel courageous and powerful for the first time. So many other systems get you to that "state", but none of them give you real tools, and then on top of it, give you the ability and all the tools needed to start your own business, to share this consciousness with more people. I intend to take this, touch more lives, let them touch more lives, and one day, hopefully we can light and ~~life~~ up the entire worlds consciousness.

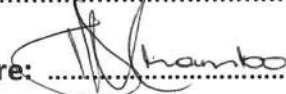

Thank You - really no other words.... You truly have transformed my life.

Thank You for the opportunity.

The realisation of how I hold myself back, was a huge mountain to face and <sup>to</sup> trust that I can cross over the mountain was not within my scope.

But I did not have to cross it, But your process allowed me to blow a path right through it.

I now know that only I can step myself. As I am sitting here at the end of training the feelings I have for myself and my future is pumping so strong, it actually hurts.

These last few days has given me the opportunity to find the true me (and there is still more to come) and to give me all I will need in my future to build the life I desire.

Thank You. Keep on changing lives.

Having attended the TLC has unlocked the door that I could not open for a very long time; the door was - Implementation, how to begin.

Also, I had learned the true meaning of partitioning your thoughts and plans to the mind: Informing the Subconscious Mind your desires.

Finally, my confidence has manifested to a higher level. I am now a confident motivational speaker, who had learnt how to transform life for a better living.

I thank God for you Burk & Isabel.  
God Bless.

Burk's workshop gave me more than I was hoping for. Tools and Techniques in a fantastic and easy to understand presentation, confidence in myself paired with the desire to build up my own coaching business. The whole course incl. the pre studies is extremely well organized. I love to have the CD's and Videos as it has been very intense what we did and I have to make sure not to forget and to apply it correctly. The course is structured and works in all senses. Exercises, even physical, made it possible to do almost 60 hours in 5 days. So well done! Thanks to Burk and Isabel, his lively and impressive wife! I definitely think of the master program. Thumbs up !!
