This course was not what I expected, it transcended my hopes and expectations. My beliefs got shaken, in a good way, and I am overwhelmed with the new strategies and techniques I learned, so much that I CAN'T WAIT TO START LIVING MY LIFE INTENTIONALLY NOW. I realised the only limitation I "really" had was MYSELF. No more letting my reality and environment determine my ideas for my life, BUT NOW → I AM TAKING CONTROL of RESPONSIBILITY for my REALITY. How empowering it was to realise all the lies I believed for so long and finally letting go of all these limits I created with them. I truly believe now — I AM GOOD ENOUGH, I AM WORTHY and I AM ABLE. Thank you Burk & Isobel for just being Burk & Isobel, and the time and effort you guys placed on creating such an unique and empowering SYSTEM. Thank you for preparing the way, through your own trials and errors, so that I now can enjoy the fruit of your labour with you

I came to this training looking to learn skills and techniques to be a high-performing coach. What I got instead ~~it~~ was a complete overhaul of the way I see myself and life in general. With each passing day of this training I have noticed the negative self-talk in my head fade away, my faith in my ability increase (dramatically) and my love and passion for humanity flourish. I received 10x more from the course than I ever expected to step away with. With Burk & Isobel I have learned how to truly love myself, how to let go of disempowering beliefs and emotions and have gained a POWERFUL skillset to become a truly awesome transformation coach. I am so honoured and appreciative for the time, consideration and love that has gone into ~~creating~~ <sup>creating</sup> this course. I have received value over and beyond what I have paid. In fact, this course has been truly priceless. Thank you, thank you, thank you.

This was a life changing experience of my life. I had to be here to experience it fully and truly speaking I gave it my all. Most of No! actually all questions I had about life were tabled in an impressive manner. This was a spirit filling, mind filling, and body filling course. This is the best and valuable investment I ever done in my life. Transformation Coaching Academy you have transformed me, empowered me, and out of all you have taken me out of my familiarity zone and once out I feel that there was no comfort in it at all. Burk and Isobel Thank you,

Thank you,  
Thank you,  
God Bless you.

2 Tim 1:7: "For we have not received a spirit of fear, but of power, love, and a sound mind." Words from the Bible, which, although my foundation and anchor in life, remained only "logos" words - having a keen understanding of it, but lacking the "rhema" - the experiential, vibrational testimony of it in my life. This has been my greatest sorrow in life, more than the ocean of pain I carried in my very fibres as a result of being human on a fallen planet. In this 5-day course I had somebody become a direction instructor, pointing me to a whole new world of understanding and experiencing myself, others around me, but most of all, my greatest desire, God. I have been given open eyes and a heart that became alive again. I know I still have a road ahead. But I now have direction, but also, so preciously powerful - I have hope. I have been stretched, I have been so afraid, but Burk has this gift to encourage a person beyond what I thought possible. My gratitude, respect and appreciation will last.

What an amazing 5 DAYS! I was once again reminded that in order to help, or transform other people's lives, I must myself be transformed. There has been a massive shift in my life in the last few days, so much so that I cannot wait to go live out what I have learned and share with others what I have received.

The training has been informative, loaded with many nuggets of truth & simply transforming.

There has been many "AHA" moments & of course a few EISH! moments.

I am empowered & full of life

Thanks so much Burk & Isobel !!

You are simply AMAZING. LOVE, JAY

The course opened my eyes to a totally new, amazing world of Possibilities. It made me to understand the <sup>amazing</sup> power of my mind and how I can use this power to reach my destination <sup>potential</sup> and make a positive impact on people's lives so that they too can be the best they can be.

At the end of the course I felt calm, all my anxieties gone, motivated because I know without a doubt that I am an ACHIEVER, I can do anything! Thank you Isobel and Burk <sup>Phenomenal</sup> coaches.

I don't even know how to describe how I am feeling right <sup>now</sup>. I am so grateful for these 5 days I went through this training, my whole outlook on life has changed. I know that everything I want or desire is in my mind, I can create it. All I see now is possibilities and how much I am well equipped to change the world. I came to the training and I felt so stuck and unmotivated, I leave today a totally different person inside, nothing is beyond my reach. I have no doubt, no fear of the world because I know I create my own world inside which will affect the outside with so much positivity. I refuse to go back to that state of being I was before, all I want to do is go higher and higher. I know I will change the world, there is so much I still need to offer the world. Thank you Burk & Isabel God Bless.

The course has completely exceeded my expectations. When I registered for it, I knew there was a place within myself that I wanted to get in touch with so that I could live my life to the fullest. I did not know how I would get to this place and what I would experience once I got there.

These 5 days have opened up an entirely new world to me. I now see myself and life from a very different perspective. I am excited about the future and I see my life already getting transformed. Thank you so much Burk & Isobel. See you soon in the Master Class!

I've experienced pure, <sup>unconditional</sup> compassion for the first time in my life, not tainted with sadness, understandings, explanations, justifications, reasoning, fake emotional incitement, theory, thoughts, or presuppositions - Towards another.

I learned the true meaning of fairness & humility - "not better than others" AND the second part of the sentence; "not less than" - "Equal to." - this to me equates to fairness. Fairness to myself. I've learnt a method to really practice the second part of the sentence "---), like thy love thyself". I somehow missed that part earlier in my life.

So much of what I have studied and researched all my life - came together in this course in a highly practical, honest, truly humble & trustful way. I've come across many ideas, quizzes etc. in my life that I hated - because ~~often~~ people build often times their identity and worth around the subjects that they study -- yoga, reiki, psyc, ----- to be an "I am"

This course has shown me how I can change to become the perfect me, to go out in life and start achieving my goals and get to my visions. How my beliefs, inner conflicts, negative emotions and traumas can be erased and replaced with better beliefs and emotions. I can get myself into higher vibrating emotions so I can be enlightened and start to help others on the planet. Have an enlightened new generation that will look after Planet Earth and its people.
