My intension for the course was to learn concepts, principles of NLP & Coaching. Wow! What I have learned has totally super-ceded my expectations, not only from the content of the course, including the impact it had on me during the 5 days. The 5 days schedule was totally intense, I had expected to be drained physically & mentally like in most courses - yet I experienced the opposite. Thank you for making me realise that with certain little tweaks in my daily routine my body is able to be energised longer and can achieve much more. Another big take away is that discipline and focus more than everything is the mother of success, which you (Burk) consistently demonstrated during this 5 days. I have not yet practiced and mastered the material & techniques, yet I feel the transformation has started taking place personally.

Thank you, Thank you, Thank you!

My FUTURE has never looked this bright, I do not just see it, I taste it!!

There is no way that I will ever be able to just be ordinary again. At this moment in my life right now (age 34) I will go through every tear, every panic attack, every humiliation and every traumatic event just because I know that my actual purpose in life started with Transformation coaching. No amount of books or programmes or self help that I've tried before worked like what I've experienced on 18-22 September 2019 with Burk & Isobel Esterhuyse. I vow to share, inspire, empower and change every person that I meet for abundance in theirs and my own future. I discover in myself more than I EVER thought was possible.

The training was amazing, I am totally new person. All the limiting beliefs have been broken, from the concentration life span, never thought I could go on and on being captivated for almost 12 hours for a good 5 full days. The training gave me a new meaning and hope to how I see myself and the world around me. The training has equipped and provided with all the necessary knowledge and skill to tackle all sorts of changes that I faced or can be faced by any person. I feel like a whole new person who can take on the world. I might not have my ideal job breakthrough as I but I now wait with completely new attitude and mindset in my current job. As a matter of fact I will not be working 4 long, only 2 more years and I'll be a sought after transformational life coach, changing and impacting lives. I really feel like nothing will bring me down and I will apply all the knowledge to my everyday life.

It built my self-confidence as well as a vision for the future. I have learnt skills on how to help children and teenagers to deal with depression, anger management and trauma. I will also use these skills to help deal with my issues that have been hindering me throughout my life. I feel I have accomplished alot in just this five days with my approach to life and how I will deal and see life in the future. When I started I was not sure of what path I will take but now I know I would definately work with kids wholistically and help them deal with their problems considering I have a teachers background.

I enjoyed this training so much that it gave me my power back. I see myself so different so fearless and so much ready for the world. Today I can safely say I am confident about myself and all my goals are possible. I'm totally transformed, and as for my fear for public speaking nothing is stopping me. All thanks to Burk Esterhuysen.

I came here to learn about coaching others and I received more than I can. Transformation starts with yourself before you can start working on other people.
