The concepts are well taught with comprehensible examples that can be used with people of all age groups. Buck and Isobel are natural teachers who have a lot of wisdom they are willing to share. I thank you for sharing your knowledge with me and making it easy to live my purpose on this Earth while I assist others to do the same. I send more love and light your way. Be blessed abundantly.

### MY EXPERIENCE

The major breakthrough for me came when we were doing self image (body pattern). As I was reading my client's attributes to her, I felt the HIGHER POWER, releasing those Attributes to me for transmission to my client. I literally felt POWER entering my entire being from my head down, and I felt it being transmitted from me to her. This connected me more to my spirituality and healing <sup>the</sup> ~~for~~ which I had disconnected with because of negative beliefs. I am now SPIRITUALLY connected and all the techniques and therapies now flow naturally. My beliefs are restored, the negative ones are gone. The voice that has been telling me I am not good enough is gone (clear screen). Isobel restored my confidence within a few minutes ~~off~~ of addressing us. THANK YOU ISOBEL

THANK YOU BURK FOR THE KNOWLEDGE &  
HEALING RECEIVED

I started this training ready to transform my life, i heard about through my Business partner and i decided let me do this. When i received the pre-study i could already see that i was doing inner work i was really taken by the pre-suppositions as well as the Goal Achieving System™. By the time it was practical week, I was so nervous and anxious but i was amazed from day 1 we did alot of inner work, i learnt more about releasing people from my perception of them and their behaviours. I started understanding why I act and feel the way i do. This course helped me to dig deep into my belief system and dig and address my subconscious mind. I really was able to let go of trauma i had been holding onto and even trauma is was not aware off. I learnt gratitude and to know that i already have what I ~~have~~ have. This course really opened my eyes to concepts and therapies that I am going to use not only just for my clients but for me too!!!!

Thank You Thank You Thank You

Although I had no real expectations, this training turned out to be nothing close what I would have expected had I had any expectations. It made concepts that were previously so unstructured and vague & so clear. It affirmed all <sup>the</sup> things I knew I was and gave me even more explore within myself. I know now for sure as I'm sitting in this chair that the opportunities available to me are infinite. It opened my eyes to the healing and potential that layed dormant <sup>within</sup> and for that I'm eternally <sup>grateful</sup> grateful Burk and Isobel. May God continue to bless you abundantly!!!

I would like to thank you for opening my eyes to new possibilities. It was amazing to learn that I can overcome any of my emotional issues that has been stopping me to move on in life and career.

Further it is amazing to know through these techniques and therapies that I can not only help myself improve but also clients that are unable to see their future and possibilities to improve themselves, so they can live their dream life, that was only that in the past... a dream. Goals <sup>that make</sup> dreams ~~made~~ into a reality. I am looking forward to my future path as ~~ea~~ a transformation coach. I am so excited!!
