This course chose me.

From watching the first video, it has started changing my life by changing my thoughts. My ship has been in stormy seas for a long time and now, for the first time in my life, I feel that I am consciously taking control of that ship. It is like a second birth. Shedding the old me with all its misleading beliefs and suppressed emotions, giving birth to the real me that I somehow knew was in here, somewhere.

With kindness, patience and dedication I will be transforming my life, moment by moment.

Thank all that is God for Burt's indomitable spirit and powerful teachings.

Thank you Isobel for your loving kindness and your courageous spirit.

I am all that I am.

The first time I attended this course was in March 2018. I experienced a massive shift in my life and in the past 2 and half years I have achieved so many goals I set out to achieve. Now, this time round I feel even more of a shift. I physically, emotionally and mentally feel like a new person - a better version of my awesome self. Experiencing this course for the second time to brush up on the techniques was massively worthwhile and I definitely recommend all coaches to come back a second time. I dealt with limiting beliefs that surfaced. I dealt with traumas and I got a lot more out of the techniques being both the "coach" and the "client". Burk is excellent in capturing an audience and the information he parts with during training is priceless. I am so so excited to finally be doing the Masters course in May 2021. I recommend this course (TCL) to anyone wanting to transform their lives as well as those wanting to start their own business. There is honestly, no other course out there like this one. VVOW WOW ♡

I wouldn't change this experience for anything!  
I have met the most amazing people and I have  
found a new mentor - Burk Esterhuysen. I feel ready  
and equipped to go back home and change my  
life and eventually change other peoples' lives  
too! If it wasn't for this course I wouldn't have  
known how to permanently change myself and  
start living the life I have always dreamed  
of living. I am so excited to see the  
change / transformation that is going  
to take place in my life! I even booked  
my spot for the masters training. This course has  
fueled the passion I have to be a coach  
and help change this world one person at a time.

Coming to the training, I had recently experienced a lot of sudden changes. Mainly within, that lead to changes in my environment. I knew they were necessary but this training has made me truly trust in my decisions to make those changes because it has confirmed that I am on a journey and that my steps are ordered. I am so much more confident in listening to my inner voice because it led me here and this training was truly what I needed to get me moving in the direction that I am convinced is where I need to be going.

I will be eternally thankful for the care they had in caring to push <sup>listened to their calling</sup> ~~because~~ ~~it is~~ it is the reason I have found and will be walking into my own purpose.

May you both continue to grow from glory to glory, living out your dream, goals and aspirations as I do the same.

I initially decided to do this course to firstly empower myself, and to secondly perhaps find a glimmer as to what I should do with myself and my life. I have been blown away by what I have experienced here.

It has been unbelievably hard at times, but here I stand now, moved beyond words by this whole experience, by the energy and light that have poured through me, igniting a passion and a new understanding that perhaps THIS is what I must now pursue — this is where I'm in that zone. And it is beautiful

The training opened some avenues of myself that I did not know exists, empowered me to love self and beyond. Also how the connection between beliefs, thought and emotions, how they affected my body and how to deal with <sup>and heal</sup> them. Building my self-image and formulating goals and imprint them in my mind, takes the cake. This a new journey I ~~to~~ am committed to continue to reach higher levels in every aspect of ~~the~~ coaching and healing.
