Coming into this training session, I had the weight of the world on my shoulders. Trying to transform your life with little to no guidance can be demotivating. I'm eternally grateful for the tools I've received & tons of knowledge. These past 5 days have truly healed me, I have a better ^{clearer} vision for my life & excited to go on this Journey.

The one thing that's constantly running in my mind is: "Focus on creating what you ~~desire~~ desire; you'll be happier".

Burt & Isobel

Thank you so much, no words can explain how I feel. This experience has truly been amazing & I'm determined to make it successful!

and so much more can be done to empower not only my clients but also myself

This training is amazingly powerful teaching me about the power of my beliefs

on every action I take and every emotion I experience.

This training empowered me, changed my self-image and that feels amazing!

This training also provided me with amazing and powerful tools to assist my

clients on their own unique journey which will not just positively affect them but

also the people around them.

This was not just a course for me, this ^{is} ~~was~~ an immeasurable gift. I feel like I have the tools to discover. This has shown me the truth that lies within. People are always looking externally for their truths or all the magnificence we don't believe we are worth or deserve. This course & EXPERIENCE was ~~my~~ inevitable, and really leaves me with a feeling of sheer appreciation. I searched, researched and even got to a point of frustration. I researched and experienced all types of spiritual and religious events, doubting the potential that resides in us all. I used to say my greatest learning experience was from Aynhuesca, and now I have had the privilege of being coached by extraordinary beings who have Manifested... Transformation Coaching Academy. Thank You Burk & Isobel. *

For the first time in my life that I feel I can do anything. I can feel it in my bones that I am successful transformation coach. I don't have any hesitation and doubt, my mind is so clear. I would normally be thinking about what my family or what other people will think about my decisions and for the first time in my life I have made the decision solely by myself that I am opening a coaching business.

It is so amazing I have been waking up without the tightness in my chest since Wednesday, this has never happened before. I wake up and there is nothing in my chest. Unbelievable!! It means the anxiety has gone. All those things that I think about on a daily basis negative stuff they are all gone. Thank You!!

The mind is such a powerful ^{tool} thing, and this training really opened my mind that you create what you think. I never would have thought that I would be able to so effortlessly break a park in half by just using my mind, and setting the intention. I will be able to assist clients with so many problems they are facing in life, after this training, by changing their beliefs or thoughts.

In the 5 days I attended the Transformation Coach from 2021-04-14 till 2021-04-18, I feel I am a new person. Before I attended this training I could not feel any emotions and I could be very angry in just a second, however, this new me is very extraordinary. Now I feel emotions, I am calm and I feel so motivated again. All my negative past are gone because now I realise that I am human, not that past work experience of not being allowed to show any emotion.

I feel zeal of life within me and the knowledge I learned. I am very certain that if I used it correctly as I am taught I will save many people and the planet too because our actions influence the world.

This transformation course has changed how I feel about myself and how I see myself.

It made me let go of all my negative beliefs about myself and life. It affirmed to me that I can do anything I put my mind to.

I have had many dreams about my life vision and never saw them through because of my ~~sur~~ surroundings being negative.

I am grateful that I have had the pleasure of doing this course and ~~change~~ changing my life so I can have the capability to change other people's lives about their beliefs.

Thank you very much Burk and Isobel!
I see myself in a new light!!

This training has confirmed my purpose,
I have always known what to do, but
I have procrastinated.

This last 5 days have ~~literally~~ literally
pushed me into my destination. It has
awakened in me the desire to go out
here and get "What is mine", it has
made everything clear and it has given
me the techniques to achieve + reach all
goals, the vision is clear. The reality
of my purpose has "Banged" on me.
There's no way I'll be and think the
same, ever, again.

Power Couple Rick + Isabel,
Thank you
