Wow!! what an amazing experience. I have spent the past few years seeking, I have found. Found answers to the many questions of why my mind operates the way it does; for far too long I felt like I wanted to move but every time I tried I got blocked/trapped. Not an easy thing to realize you have been working against yourself ~~even~~ knowingly or not. The past 5 days have been filled with so many emotions. but I pulled through, I feel like myself, like I understand how I function. Thank you Burk & Isobel for sharing yourselves with me/us, thank you for imparting all the skills & knowledge so unselfishly. 2018 when I came across this course everything in me said "Yes", now 2020 December I do not regret my Yes.

Kind Regards to the  
Family

This is by far one of the best decisions I have ever made for myself. Coming in, in my confused state about my career and what next - I came thinking I'm just coming to find out what I started when I enrolled and we will see what next. However, this turned out to be absolutely life changing for me. I got so much self awareness, healing and sense of peace. I now understand myself, the world around me and how I cause ~~the~~ effect my life and the lives of those around me. With <sup>29</sup> years of living I thought I knew some things (lol), I knew nothing and I'm here more hungry for the much I still don't know because I am sure I don't know much still. There is still so much more to tap into in terms of discovering myself, the world, my beliefs, my dreams & power.

I am so charged up and confident in what I am capable of and what I have that is dormant in me and ready to be awoken because truly I feel I was born for a time such as this and I need to become the person that this time needs for the benefit of not only myself & loved ones but the world as a whole.

I have always heard you cannot give what you don't have - Burk has a lot to give and he gave me so much of it and I am going to go give as much as I have and will come back for more (masters) in order to go give out too.

I am convinced that there is no better time to start than now. I am grateful for the reminder mails, I could never have experienced this anywhere else. Burk you teach with so much patience & passion it is contagious and beautiful to watch.

Thank you ☺

My vision of the conscious mind & sub  
conscious opened and changed so many aspects  
believes, pre thoughts and "historical" thoughts  
in these 5 days.

My outlook and believes has made a  
360° turn.

The way I perceive the mental capacity/worth  
of the brain has changed.

Thank you Burke,
