I was really excited to do the course because I want a career change. I wasn't quite prepared for the incredible change it would bring in myself! The going was dramatic and tough but the results were off the chart. Even though my body was tired, I had enough energy to light up cities and solve all Eston's problems.

But, you are a legend and I am looking forward to my Master's course next year!

I can highly recommend this course to anyone who wants a positive transformation in their lives.

This was the most mindblowing five days I have ever experienced in my life. I have never in my 57 years felt so empowered, inspired, energetic, comfortable in my own skin as I am feeling right now. I have overcome so many challenges + obstacles in these 5 days that I never thought possible.

I have the emotional power and energy to face and do everything. I radiate self-confidence and a massive mindshift.

The knowledge and energy that Burt presented during my training was so inspirational and

Mindblowing and we were all
so blessed that he and
Isabel are prepared to share
their journey with us.

Thank you!

May God bless us all on
our new journey!
