This training changed my life completely! It provided me with all the knowledge & technical skills to transform myself and my life 100% from the inside out. Burk compiled all the information in an easy to understand & easy to follow step by step guide, thereby making it accessible to even entry-level personal growth fanatics. I highly recommend this course to anyone out there who are serious about transforming their lives. I am healed from all my trauma, something which a psychologist couldn't help me with! Thank you Burk! And thank you Isabel! You are amazing!

After 22 years of exploration through a multitude of personal growth courses and studies, among them ^{with} Indian gurus, Chinese masters and Filipino physicists, five days of practical training with the Transformation Coaching Academy has transformed my body, mind and spirit sustainably like never before. Throughout the five days it was measurably apparent in how walk, talk, move and think. Literally, my spine has aligned and straightened through the various therapies applied, without any physical manipulation being applied. Being able to directly access my subconscious mind through specific techniques has enabled ^{me} to stand proud in truly being ^{myself} ~~see~~, with so many limiting emotions and beliefs dissolved. Inner conflict ^{usually} ~~is~~ ⁱⁿ apparent incessant chatter in the mind has also been quietened, giving me renewed vigour to re-vision my life, with my horizons broadened considerably.

I am or was a very anxious and fearful person.

During the training and the TRAUMA counselling for healing,

I felt the anxiety quietened down in my head.

My self image of myself and the acceptance of myself

has improved. I also learnt from other peoples experiences

that I am not so different. It was a very

good course. I feel powerful and the self

belief in myself is better. I am a better person.

I started the course with very low energy level,

but my energy level feels a bit higher.

I learnt how to change the stories I tell myself.

I am extremely grateful that I took time from work

to invest in myself and to come to a

life changing course.

I've been fascinated and inspired by the Transformation Coaching Academy since I was in high school but have never been in Burk and Isobel's presence until this training.

Nothing could have ~~be~~ prepared me ^{for} what they have unconditionally given me the past five days.

Having an idea of how great you could be is one thing, feeling it and believing it is another and this is what I'm walking away with.

I now have the tools and techniques to be unstoppable and to take clear and confident ^{actions} steps towards the me I know I am.

Thank you Burk and Isobel

This training opened my
mind to existence of issues way
beyond my level of professional
exposure and personal experience.

I have learned of the power of
the subconscious, ~~even~~ the different
laws - vibration and attraction - that
I knew about - but have misunderstood.

The power of the now - timelines,
energies, beliefs, spirituality.

These are issues that I come
across in often presented in complex
situations - but with a limited
understanding of the scope
